The 70th Week = 7 Years

The 70th Week is seven years in length, but biblically speaking there is no such thing as a "seven year Tribulation." The "Tribulation" and the "Great Tribulation" are one in the same according to scripture, and these terms refer to the persecution received by those who refuse to bow to the beast. This persecution begins 3.5 years after the inception of the 70th Week.
